

A Vaccination Process Everyone Can Trust

Public Health Center (Medical Staff)

This system helps to prevent vaccination and registration errors, even during busy times. The safety features keep us on track—it's been a big help!

Patient Park

I felt cared for even after the vaccination. The 72-hour AI monitoring made me feel secured. I was very satisfied with the platform

Patient Kim

With the Safe Vaccination Platform, I was surprised I could track details like vaccine info and injection time. It feels good to know what's going into my body!

“Get vaccinated more easily and safely”

Safe Vaccination Platform

The [Safe Vaccination Platform] is Korea's all-in-one digital system for preventing vaccination errors and providing AI-based care for side effects after vaccination.

Vaccination error: How They Happen!

Have you seen cases like this before?

01

A parent concerned about the vaccination of their baby

Are there any children's hospital that tells the parents of what vaccine it is? I'm just really worried about a vaccination error!

02

Confusing guidelines led to many vaccination errors

A six-month investigation into vaccination errors revealed errors at 19 local healthcare facilities

03

Concerns about vaccination errors when vaccines are given simultaneously

This is my first time injecting three vaccines at the same time. As a person in charge of the injection, I feel overwhelmed and anxious

04

Flu Vaccination error in a 14-month-old infant

I received a call saying that my baby was given a vaccine for 13-year-olds by mistake. As a mother, I'm absolutely shocked and mad right now

When Vaccination Goes Wrong, It's Already Too Late.

To prevent these kinds of accidents from happening and to protect our family, the **[Safe Vaccination Platform]** was created

"

Vaccination error: How to prevent!

Get vaccinated more easily and safely!

STEP 01 Ready for Vaccination! | Get your personal QR code in just 10 seconds and get ready for a safe vaccination

STEP 02 No More Vaccination Errors! | Verify together (Patient & Medical Staff) for safe and accurate vaccination

STEP 03 Easy-to-Use Auto Guidance! | After vaccination, precautionary instructions are sent automatically!
